Welcome to Lactation Exam Practice

Lactation Exam Practice comprises sets of multiple-choice questions, including questions with graphics and photos, and provides candidates of the IBLCE Examination with the opportunity to gain experience and confidence in this form of assessment. The range of questions is based on the disciplines examined by IBLCE as published in their Content Outline. Commentary and feedback is provided for every answer and, when appropriate, referral to research in that area for further study.

Select one:

- A. Breastfeeding the infant.
- B. Place the infant to sleep on a sofa near you during the day for closer observation.
- C. Place the infant on a firm, flat mattress to sleep.
- D. Place the infant on his back to sleep.

Such simple strategies have had a profound effect on the incidence of SIDS. You will know about firm surfaces and the "back to sleep" campaign. Formula feeding is a risk factor and so is the soft surface of a sofa. (Zotter 2012; Moon 2012)
The correct answer is: Place the infant to sleep on a sofa near you during the day for closer observation.
